Legal Issues Questions

- 1) 4.3 g. Telecommunication Devices
Can school boards really decide on and enforce a policy that limits cell phone possession? How would this look? Have any districts adopted a policy like this?
- 2) 4.12 Classes Shall be Taught in English
This seems confusing because the second sentence says " ...when teaching in a language other than English will aid the Educational Advancement of a student, it may be done." What does this section really mean?
- 3) 4.18 Reporting Child Abuse
Does the teacher need to make the report directly to the proper law enforcement agency? Or does the teacher report to the principal who reports to the district attorney? I would like to understand the correct procedure.
